Job Summary

We are seeking an experienced Chief Executive Office (CEO) to spearhead the organization's efforts in achieving its mission of technology development, innovation, and engagement within the startup ecosystem, academic institutions, and government agencies. This role demands a visionary leader capable of meeting the ambitious targets set by the National Mission on Interdisciplinary Cyber-Physical Systems (NMICPS). The CEO will oversee business operations, drive sales and marketing strategies, and ensure compliance with relevant regulations.

Key Responsibilities

1. Lead the development and execution of the foundation's strategy in alignment with the goals set by NMICPS.
2. Oversee the foundation's technology development projects, ensuring they contribute to the innovation ecosystem.
3. Engage with Corporates, start-ups, academic institutions, and government bodies to foster partnerships and collaborations.
4. Drive the organization's financial performance and ensure sustainability through effective business development and sales strategies.
5. Maintain compliance with legal and regulatory requirements.
6. Report progress and challenges to the Board of Directors and NMICPS as required.
7. Represent the foundation in public forums, enhancing its visibility and impact in the technology innovation sector.
