The candidate would be proficient in building high performance products. Strategic thinking and strong business acumen is essential for this role. The candidate should be well-versed in current technological trends and familiar with a variety of business concepts.

Job responsibilities include, but are not limited to the following:

- Architect scalable, distributed and large-scale mobile solutions from scratch
- Own code quality and code review across mobile applications
- Develop highly optimised hybrid applications that match the performance of native ones
Implement automated unit test cases.
- Work closely with Product, Design, QA, and other engineering teams for highly stable, quality app releases.
- Troubleshoot development and production bugs.
- Ability to handle Mobile app architecture, design and optimization, estimate timelines, able to provide a solution to improve mobile app quality, understand emerging technologies, to maximize development efficiency, standards and best practices to bring mobile app product to the next level.
- Write clean, manageable code and maintain proper documentation.
- Perform any other office duties as needed and assigned.

Skill Sets, Knowledge and Experience

- **Educational qualifications:** 1. B.E/B.Tech or equivalent degree in Computer Science/Electrical Engineering/ Electronics/ Information Technology or related fields.
2. Strong programming skills in Java, Mobile development / testing, web services, JavaScript.
- **Experience:** minimum 3 years of experience of developing mobile applications.
- **Desirable:**
 - Excellent command over Data Structures and Algorithms.
 - Experience with offline storage, threading, and performance tuning.
 - Knowledge of the open-source Android ecosystem and the libraries.
 - Strategic thinking and an analytical mind.
 - Problem-solving aptitude.

Compensation, Tenure and other details:

The consolidated salary will be in the range of **INR 75,000 – INR 1,00,000** per month. It will be a contractual position with an initial period of appointment of eleven (11) months, extendable based on performance. There will be an initial probation period of 3 months.

General Instructions:

1. iHub-Anubhuti reserves the right to restrict the number of candidates for the further recruitment process to a reasonable limit, on the basis of qualification and experience, etc.
2. iHub-Anubhuti also reserves the right of rejecting any or all the applications without assigning any reasons thereof.
3. Eligibility of a candidate to the post will not automatically mean that he/she will be shortlisted and called for further recruitment process. No request in this regard will be entertained for review etc.
4. The selected candidate will be expected to join within a month from the date of Offer of Appointment.

How to Apply:

Interested candidates may apply on the [Application Form](#). This is a rolling advertisement until the position is filled. Only shortlisted candidates shall be called for the further recruitment process. The decision of the management for the shortlisting and selection will be final.
