Job Summary:

We are looking for an experienced Tech Lead with a proven track record of software project management and successful project delivery. The ideal candidate will have a minimum of 7 to 8 years of experience in leading technical teams, overseeing software development lifecycles, and ensuring the successful implementation of high-quality software solutions. This role requires an individual with strong technical expertise, exceptional problem-solving abilities, and excellent leadership skills.

Number of Post: 1

Key Responsibilities:

1. Lead end-to-end software development projects, ensuring high standards in quality and timely delivery.
2. Oversee project lifecycle, including planning, development, testing, deployment, and maintenance.
3. Coordinate with cross-functional teams to understand requirements and provide technical direction.
4. Manage and mentor a team of developers, providing guidance on best practices in coding, design, and architecture.
5. Collaborate with stakeholders to define project scope, objectives, and deliverables.
6. Identify potential risks and implement risk mitigation strategies to ensure smooth project progress.
7. Ensure all technical requirements are met and aligned with the organization's standards and objectives.
8. Track and report on project progress, budgets, and timelines to stakeholders and management.
